

Russell Dudek

Enterprise AI Workflow Engineering | Governed Agentic Systems | Operating Transformation

Pittsburgh, PA | 412.287.8640 | russelldudek@gmail.com | linkedin.com/in/russelldudek
<https://russelldudek.github.io/PNC/>

Candidate for PNC Enterprise Engineer Sr - AI

Scale the work. Not just the prompt.

Executive profile

Operator-technologist who makes complex work visible, connects business and engineering teams, and builds governed mechanisms that turn emerging technology into adopted, measurable operating outcomes. Hands-on across workflow design, structured context, retrieval, agentic patterns, human review, evaluation, governance, telemetry, and continuous improvement.

Role-aligned capabilities

Agentic workflow design	Prompt and context architecture	Evaluation and regression testing
Human-in-the-loop controls	Business process discovery	Security and governance rails
Python, SQL, JavaScript	RAG and retrieval patterns	Adoption and value measurement

Experience

Vape-Jet | Director of Operations | 2025-Present

- Leads AI-first operating transformation across production, purchasing, quality, customer success, support, engineering issue flow, ERP/Odoo, Jira, HubSpot, Slack, telemetry, and AI-assisted workflows.
- Connects factory, field, customer, and machine-fleet signals into prioritized work, earlier risk detection, cleaner handoffs, dashboards, standard work, training, and accountability.
- Works directly in a software-enabled robotics and machine-vision environment with approximately 1,000 fielded robots informing operating feedback loops.

DudeWorth | Founder / AI and Automation Advisor | 2017-Present

- Develops AI-readiness and opportunity frameworks assessing value, feasibility, data readiness, governance, adoption burden, reuse, and time-to-value.
- Designs agentic workflow patterns using structured context, retrieval, AI agents, human judgment, escalation, decision records, evaluation, and governance rails.
- Advises on AI-enabled operations, logistics technology, warehouse automation, AMRs, ASRS, cobots, transportation systems, network analysis, and workflow design.

Selected evidence and technical foundation

Amazon | Operations Management / Site Leader | 2014-2018

- Led launch and execution for Amazon Prime Pittsburgh in a 24/7 customer-backward environment supporting approximately five million second-day orders annually.
- Served on the Amazon Prime Now launch team with Whole Foods.
- Built leadership routines, labor planning, throughput visibility, escalation paths, standard work, and operating mechanisms using Lean and Gemba practices.

Compunetics | Director of Operations and Engineering Management | 2000-2013

- Progressed through R&D program management, production management, strategic acquisition, operations management, and director-level leadership.
- Led engineering, manufacturing, quality, customer delivery, and complex technical programs in advanced electronics and high-reliability environments.
- Built quality systems, standard work, root-cause practices, performance measures, and process controls; collaborated with DoD, CERN, Intel, and AMD.

Cardinal Building Products | Regional Director | 2021-2023

- Built the company's first remote regional operation and modernized distributed CRM, commercial, fulfillment, logistics, digital marketing, SEO, and online-buying workflows.

ZeusVu | Chief Pilot, Autonomous Systems and Aerial Data Operations | 2018-2022

- Led regulated drone operations across medical, energy, logistics, real-estate, and restricted-airspace contexts with a 100% safety record and no FAA incidents.
- Developed TensorFlow-based concepts for automated aerial inventory and computer-vision-enabled field intelligence.

Education and credentials

University of Pittsburgh | Bachelor of Science | Materials science, physical chemistry, and biology-related academic grounding.

Google AI Essentials | Food Safety Management Certification | IBM Enterprise Design Thinking Practitioner | Six Sigma Certification | OSHA 10

Technical toolkit

Agentic AI | LLM workflows | RAG patterns | Human-in-the-loop design | Python | SQL | JavaScript | TensorFlow | Tableau | ERP/Odoo | Jira | Confluence | HubSpot | Slack | GIS and mapping workflows
