

Russell Dudek

Enterprise AI Workflow Engineer

PROFILE

Operator-technologist. Turns AI demand into selected, governed workflows by connecting process owners, engineering, data, risk, quality, and operating evidence.

CURRENT AND RELEVANT EXPERIENCE

Vape-Jet | Director of Operations | 2025-Present Present operating transformation across production, support, quality, engineering issue flow, Odoo, Jira, HubSpot, Slack, telemetry, and approximately 1,000 fielded robotic systems.

DudeWorth | Founder / AI and Automation Advisor | 2017-Present and workflow patterns using structured context, retrieval, agents, human judgment, escalation, evaluation, governance, reuse, and time-to-value.

Amazon | Operations Management / Site Leader | 2014-2018 Implementing mechanisms for Amazon Prime Pittsburgh in a 24/7 environment supporting approximately five million second-day orders annually.

ROLE FIT

- Corporate AI demand portfolio and process-owner discovery.
- Approved-capability disposition: Copilot, vendor AI, deterministic automation, bounded custom, or hold.
- Systems of record, source authority, data lineage, human decision rights, evaluation, adoption, and economics.

Russell Dudek

Enterprise AI Workflow Engineer

ENGINEERING, QUALITY, AND REGULATED SYSTEMS

Compunetics | Director of Operations and Engineering Management | 2000-2013
and high-reliability technical programs with DoD, CERN, Intel, and AMD.

ZeusVu | Chief Pilot, Autonomous Systems | 2013-2022
based aerial inventory and computer-vision concepts.

Cardinal Building Products | Regional Director | 2021-2023
logistics, digital, and online-buying workflows.

EDUCATION AND CREDENTIALS

- University of Pittsburgh - Bachelor of Science; grounding in materials science and physical chemistry.
- Google AI Essentials; IBM Enterprise Design Thinking Practitioner; Six Sigma Certification; OSHA 10.

TECHNICAL TOOLKIT

- Agentic AI, LLM workflows, RAG patterns, human-in-the-loop design, Python, SQL, JavaScript, TensorFlow, Tableau, Odoo, Jira, Confluence, HubSpot, Slack.

CANDIDATE THESIS

- Understand the portfolio. Scale the work-not just the prompt. Every workflow should carry source authority, permissions, evaluation evidence, human authority, economics, and an operating record.
